

# The NATURE'S BIOTICS® Formula III System

## LIFE'S GREEN ESSENTIALS™ *Enhanced SBO Formula*

### INGREDIENTS:

30+ Nutrient Rich Whole Foods, Organic Green Grass Juices & Vegetables Containing Enzymes, Over 70 Antioxidant Complexes, 20 Amino Acids, Omega 3, 6, 9, and 18 Essential Fatty Acids, Over 90 Bio-Available Food Form Minerals, Proprietary Blend of SBO's, Probiotics, Soluble and Insoluble Fiber to promote proper elimination

### SUGGESTED USE:

Mix 1 scoop with 8 ounces water or juice, daily. For advanced health benefits, mix 1 scoop with 8 ounces of water or juice, twice daily. Shake or blend thoroughly. Ideally taken in the morning.

**CAUTION:** As with any dietary supplement, you may wish to consult your healthcare practitioner before using LIFE'S GREEN ESSENTIALS™.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

LIFE'S GREEN ESSENTIALS™ is a highly concentrated completely absorbable whole food nutrient powder, containing living properties such as Enzymes, Essential Fatty Acids, Protein, Fiber and Antioxidants in a bio-available whole food form. These nutrients have not been altered and remain in their naturally occurring state. LIFE'S GREEN ESSENTIALS™ is the first Super Green Food dietary supplement known to contain **SBO's (Soil Based Organisms.)**

**Why SBO's you may ask?** We have formulated LIFE'S GREEN ESSENTIALS™ with the NATURE'S BIOTICS® Proprietary SBO Probiotic Blend. LIFE'S GREEN ESSENTIALS™ enhanced with these SBO's, provides the perfect Super Green Food complete with the same soil based organisms that were once present in our vegetables before the depletion of our soil brought on by over-farming and harmful chemicals.

LIFE'S GREEN ESSENTIALS™, as a whole food complex contains hundreds of nutrients that the body selectively identifies and readily absorbs based on our individual daily nutritional needs. LIFE'S GREEN ESSENTIALS™ offers you a complete balanced natural alternative to the more common isolates and synthetic nutrients. One daily serving of LIFE'S GREEN ESSENTIALS™ is the equivalent of 8 to 10 servings of vegetables. For decades, nutritional health experts have been stating that 3 to 5 servings daily of fresh vegetables are necessary to maintain vital health, yet statistics prove that less than 10% of adults meet this daily recommendation.

### EACH 10 GRAM DAILY SERVING PROVIDES:

**NATURE'S BIOTICS Proprietary SBO Probiotic Blend:** Lactobacillus Acidophilus, Bifidobacterium Bifidum, Bacillus Lichenformis, Bacillus Subtilis, Lactobacillus Lactis, Lactobacillus Bulgaricus, and a proprietary blend of SBO's (Soil Based Organisms) symbiotically blended in a host growth medium. The **SBO Probiotic Blend** used in Life Science Products formulas is unique, in that at the point of culturing, these vital organisms are rendered into a "State

of Dormancy." This proprietary technology, supported by a substrate of "life sustaining" nutrients including a full spectrum of vitamins, minerals and trace elements, protect and nourish these organisms until activated with an aqueous solution, such as juice or water. Once ingested, they multiply into billions of colonizing organisms and begin to populate along the entire intestinal tract, working to rid the body of disease causing pathogens and other toxins. The NATURE'S BIOTICS® SBO Probiotic Blend can be kept at room temperature, does not require refrigeration and has a 5-year shelf life.

**2135 mg. Phyto-Nutrient Blend With Live Enzymes:** Organic, low temperature dried, pure concentrates of Kamut Grass, Barley Grass, Carrot, Tomato, Spinach, Kale, Broccoli, Beet, Cabbage, Parsley, Alfalfa Grass, Oat Grass Juices (no starch, herbs, fillers, or glutes), Brussel Sprouts, Asparagus, Celery, Garlic, Onion, Ginger.

**2500 mg. Whole Food Antioxidant Blend:** A proprietary formula containing stabilized Rice Protein, Rice Bran, and Wheat Germ which supplies Fatty Acids, 20 Amino Acids, 70+ Antioxidants, Vitamin E (Tocopherols); are all excellent sources of soluble and insoluble fiber.

**2020 mg. Seed and Sprout Blend:** Soy Sprouts, Chia Seeds, Flax Seeds, Fennel Seeds, Borage, and Black Currant: raw and naturally stabilized for freshness. Provides the full spectrum of Essential Fatty Acids including Omega 3, 6, 9 and 18.

**2400 mg. Protein-Mineral Blend:** Spirulina, Chlorella, Sea Kelp containing a full spectrum of naturally occurring minerals and a high concentration of bio-available Proteins and Growth Factors.

# What Are SBO's?

## (Soil Based Organisms)

**SBO's** are beneficial soil bacteria that were a normal part of our diet until the end of the 19<sup>th</sup> century. Around that time, the introduction of pesticides, chemicals, and food processing diminished the daily "farm to table" ingestion of raw fruit and vegetables containing these SBO's. When ingested as a natural part of our daily food source, these friendly organisms acted as a buffer to safeguard the natural intestinal flora (friendly bacteria.) They produced benefits in the body, such as the natural production of our own antibodies, improved digestion, greater absorption of nutrients, and most importantly, they worked to rid the body of disease causing pathogens (disease causing organisms) and other deadly toxins.

The **NATURE'S BIOTICS SBO/Probiotic** blend present in our **CHILDREN'S Formula**, functions in a very similar fashion as in nature. This proprietary blend is unique, in that at the point of culturing, these vital organisms are rendered into a "**State of Dormancy.**" Through our revolutionary technology and the support of a substrate of "**life sustaining**" nutrients which include a full spectrum of vitamins, minerals and trace elements, these organisms are protected and nourished until activated with an aqueous solution, such as juice or water. Once ingested, these **friendly microbes multiply into billions of colonizing organisms** and begin to populate along the entire intestinal tract, working to rid the body of disease causing pathogens and other toxins. Because of this special technology, **NATURE'S BIOTICS CHILDREN'S SBO/Probiotic** blend can be kept at room temperature; it does not require refrigeration and has a 5-year shelf life.

### Some of the benefits of friendly Soil Based Organisms are:

- SBO's produce specific proteins that act as antigens. These antigens help to stimulate and strengthen the immune system by producing a reserve of natural antibodies that are un-coded and stand ready to defend the body against unfriendly invaders.
- SBO's are extremely effective in supporting the body in its fight against pathological molds, yeast, fungi, and viruses.
- SBO's produce a potent antioxidant enzyme called "**Super Oxide Dismutase**" that acts as a super scavenger to defend against free radicals (free radicals will attack any molecule in the body creating organ and tissue damage.)

### How Are SBO/Probiotics Different From Other Probiotic Products?

There is a powerful distinction between SBOs (Soil Based Organisms) and other popular probiotics on the market today. Although SBOs fall under the same probiotic category, consuming typical probiotics without the SBOs would be like playing football without a quarterback. The bacteria found in the usual probiotics are endogenous, meaning these bacteria are naturally occurring in the body, whereas, the SBOs in **NATURE'S BIOTICS® CHILDREN'S SBO/Probiotic Formula** are not endogenous to the body. They are non-toxic, friendly, **FOREIGN** bacteria, which act as a catalyst for the body to help produce its own natural antibodies which are non-specific and stand readily available to help defend the body against dangerous unfriendly invaders.

For optimal health benefits, we recommend the **NATURE'S BIOTICS Formula III, PLUS™** products including; **Aloe PURE™** for cleansing, **pH PERFECT™** for acid/alkaline balancing, **NATURE'S BIOTICS** for intestinal health and daily production of your own natural antibodies, and **LIFE'S GREEN ESSENTIAS™ Enhanced with SBO's** for the ultimate whole food nutritional support.
