Anti-Aging Formula Puts the SPRING Back Into Your Step!

*In today's society, we have every opportunity to extend our life span and remain healthy late in life. The most important key factor to this "fountain of youth" is **SYSTEMIC PLANT ENZYMES**.*

Since the beginning of civilization, many cultures have believed that there is an invisible force which made all living things. We now know that this mysterious force, which transforms one substance into another like milk into cheese or grapes into wine, is Systemic Enzymes. *Even the air we breathe was transformed millions of years ago by certain new enzymes that were formed by single plants that separated oxygen from carbon dioxide allowing for new life forms to exist.*

So why are SYSTEMIC ENZYMES so important to Anti-Aging? In a word — LIFE. Without systemic enzymes, LIFE itself is not possible, not for people, plants, or animals.** *Enzymes are the single most important essential for every reaction taking place in a living organism because every second of every-day life changes and renews itself. Restoring proper levels of systemic enzymes in the body will quickly put it on the road to recovery.*

In the 1930s scientists only knew of 80 types of enzymes. Today, they have identified more than 2,700 different enzymes that act with incredible speed to keep our vital life functions in order. These enzymes act as "biocatalysts" whose very presence causes the acceleration and transformation of an organic substance.**

Enzymes are essential for the adequate functioning of our entire metabolic system. No part acts alone; every part of the body is related to the whole. Biochemically speaking, *even a single tiny disturbance in this enzymatic order can result in a complete imbalance making the body susceptible to a variety of chronic to life-threatening diseases.***

Unlike standardized digestive enzymes, which are often isolated and then blended, *naturally occurring Systemic Plant Enzymes act synergistically and have been proven to have an efficacy of more than three to four times standardized versions.*** *Not only do they work as digestive enzymes to break down protein, fats,*

Q. Lifestyle Question of the Month:

Did you know that **if you eat organically grown foods**, it is even more important for you to **consume Probiotics daily?**

Why? Because without the pesticides and chemicals, you are actually more exposed to fungus, mold, and bacteria.

Recently, I conducted a nutritional live blood cell analysis on this couple who always eat healthy organic foods. To our shock, both tested revealed an excess of fungus, mold, and bacteria in the live blood sample.

I immediately investigated the situation and was reminded that without the pesticides and chemicals, these fresh fruits and vegetables contain fungus, mold, and bacteria. We, of course, encourage eating organic to avoid chemicals but always remember to add a few Probiotics to your daily regime. **BODY BIOTICS™** is a time-tested safe and effective solution to your daily Probiotic needs. Customers around the world praise **BODY BIOTICS™** as being the best Probiotics Supplement.

BODY BIOTICS™
Advanced Probiotic Formula
90 capsules /Retail: \$54.00

President's message continued...

*and carbohydrates; they flow into the bloodstream and throughout our entire body, producing many transformative healing effects. In other words, **natural Systemic Plant Enzymes provide us with whole-body benefits.** Systemic Plant Enzymes go well beyond the intestinal tract and produce beneficial regenerative effects in every part of the body...the organs, the blood, the immune system, and so on.*

Systemic Enzymes (Plant and Animal) have been used in the food, medical, and pharmaceutical industry for many years. In the medical industry, **SYSTEMIC ENZYME THERAPY** is the correct medical name for the **therapeutic use of these natural enzymes. Enzymes are used in medical testing to determine blood sugar levels, Heart Disease, Cancer, Leukemia, Anemia, and others; by measuring the amount of various enzymes in the blood and/or other bodily fluids.** So, if measuring the amount of enzymes in the blood/bodily fluids can indicate a diseased state, logic tells us that enzyme activity in the body is crucial to good health and having the right amount of these various enzymes can restore the body to a healthy state.**

Furthermore, in the pharmaceutical industry, enzymes are used to produce **drugs as enzymatic inhibitors, such as Cytostatics, Antibiotics, Steroids, etc., and unfortunately these drugs produce a variety of side effects. SYSTEMIC PLANT ENZYMES are a natural alternative that helps to alleviate disturbances in the bodily functions and works to repair the body, rather than, to inhibit it.**

In conclusion, medical literature had reported more than **150 diseases that are a direct result of enzymatic deficiencies. After many years of research, scientists have concluded that enzymatic deficiencies could be corrected or, at least, neutralized by means of the proper application of systemic enzymes.****

So, medically speaking, if measuring the amount of enzymes in the blood/bodily fluids can indicate a diseased state, logic tells us that enzyme activity in the body is crucial to good health and having the right amount of these various enzymes can restore the body to a healthy state.

***If you suffer from:** Anemia, Candida, Autoimmune Disease, Inflammation, Colitis, Back Pain, Gas, Heartburn, Gout, Diarrhea, Anxiety, Stress, Headaches, Hypertension, Insomnia, Congestion, Food Allergies, Chronic Fatigue, Constipation, Flu and Colds, PMS, Lactose Intolerance, Sinusitis, Eczema, Aching Muscles and Joints, Arthritis, Crohns, Diverticulitis, MS, and many others; these have all been identified*

Presidents message continued...

as being directly related to enzyme deficiencies. **Any and all of these chronic diseases compromise our long-term health, lead to pre-mature aging, and shortening of life span.****

When selecting natural enzyme supplements, **it's important to note** that enzymes are catalytically active polymer compounds made of amino acids. The formation of **ALL enzymes requires certain organic molecular pieces of vitamins, minerals and trace elements**, all together called "**co-enzymes.**" Without these critical "co-enzymes," proper enzyme production cannot take place.

Product formulas, such as, **Body Biotics SPE™** (Systemic Plant Enzymes) contains both the enzymes and the organic molecular co-enzymes necessary to produce safe and effective results. For Anti-Aging protections, we recommend adding two **Body Biotics SPE™** capsules to your health regime, 3 to 4 times a day.

CURRENT EVENTS

Heartbeat of America Hosted by William Shatner

Life Science Products is proud to announce that we will be featured on **William Shatner's** national cable television show, **HEARTBEAT OF AMERICA.**

During the show, President, Kelli de Santé will receive the prestigious "**Keeping America Strong**" award presented by Retired Rear Admiral Kevin F. Delaney. This award is presented to companies that have products or services that make a difference in our quality of life here in America.

William Shatner began producing the show after the 9/11 terrorist attack, as a way to showcase the resilient heart of Americans. The show is scheduled to air some time early to mid March. Actual dates are not yet available, so please check your local cable network schedule for or go to: <http://www.youtube.com/bodybiotics> to view the pre-recorded video.

*Even a single tiny disturbance in the body's enzymatic order can result in a complete imbalance making the body susceptible to a variety of chronic to life-threatening diseases.***

Customer Testimonial

After being in the health field for the last 10 years. I am a huge proponent of Probiotics. I have tried many different Probiotics supplements, including some which had to be refrigerated. I finally settled on Body Biotics because I got the biggest bang when taking them with my daily regimen.

I am very healthy, so for me to feel such a difference, I knew Body Biotics had to be really good. As soon as I started taking it, I noticed that my energy increased in a core power and stamina way. It was subtle, but I definitely felt it. When everybody around me gets sick and I don't, I know that in part it is due to Body Biotics. I wouldn't be caught without this product. I love it and recommend it to everyone I know.
